Complete Set:

- Steel Front Door, Rear Door and 2 Side Door with Lock
- 1 Unit horizontal PDU 1U 8 outlet germany with switch for 20U - 32U
- 1 Unit vertical PDU 1U 12 outlet germany with switch for 42U
- 1 Unit modular fan for Rack 20U 32U
- 2 Unit modular fan for Rack 42U
- · 1 Pcs top brush panel
- · 1 Set cable ring
- 1 Pcs fixed shelf
- · 100 set Screws and Cagenuts

WALLMOUNT RACK 19"

The Rack.id Wallmount Rack is a durable and space-efficient solution designed to securely house networking, server, and IT equipment. Built with precision engineering and high-quality materials, it ensures reliability and stability for professional installations in offices, data centers, and industrial environments.

Specifications

- · International Compatibility : Complies with 19-inch and ETSI standards for universal compatibility.
- · Strong Construction : Welded steel frame ensures long-lasting stability.
- · High Load Capacity: Supports up to 60 kg static load for various equipment.
- · Space Optimization : Wall-mounted structure saves floor space and allows easy maintenance.

- 1 set Dynabolt set of 4
- 20 set Screws and Cagenuts
- 1 set Support Angle

WALLMOUNTED FOLDING 19"

Description

Wallmounted folding racks are specifically designed for applications requiring minimal networking and telecommunications equipment. They provide a practical, space-efficient, and cost-effective solution for installing network devices in residential, office, or light commercial environments, while allowing easy access for maintenance and upgrades.

Specifications

- 19-inch rack width, designed to accommodate a wide range of networking equipment.
- · Constructed with durable cold rolled steel for strength and stability.
- · Finished in matte black powder coating for a clean and resilient appearance.
- Built to comply with international industry standards for mounting configuration.

Complete Set with	1 set dynabolt, 20 set screw and cagenut			

OPEN WALLMOUNT 19"

Open Rack Wallmount is an efficient and versatile server rack designed for wall-mounted installations. Unlike enclosed wallmount racks, this open-frame model provides unobstructed access to mounted equipment, making it ideal for environments that require frequent maintenance, cable management, or airflow optimization. The swing-out design allows the rack to pivot 90 degrees, enabling convenient rear access without the need to dismount equipment.
